Our School Population

- African American: 99% (Citizens Academy), 98% (Citizens Academy East)
- White: 1% (Citizens Academy), 1% (Citizens Academy East)
- Other: 0% (Citizens Academy), 1% (Citizens Academy East)

Economically Disadvantaged: 100% (Citizens Academy), 79% (Citizens Academy East)

Students with Disabilities: 11% (Citizens Academy), 3% (Citizens Academy East)

Percentage of Subjects Taught by Certified Teachers: 100% (Citizens Academy and Citizens Academy East)

Cleveland Comes Together for Citizens Academy East

When the first Citizens Academy school replication opened on Cleveland's east side, the community immediately jumped in to get involved. At the former Captain Arthur Roth Elementary school, community members and volunteers helped prepare the building to house students, while Thompson Hine LLP volunteers spruced up the outside of the building. In October, CAE dedicated the plaque in the main hallway to The Lubrizol Foundation, whose donated funds helped to purchase the building. Citizens Academy East looks forward to continuing this strong partnership with the important people and community groups that helped to make this possible!
Citizens Academy (CA), a Breakthrough school, has a long and rich history of providing a high-quality, college preparatory education to Cleveland students since 1999. Last August, Citizens Academy East (CAE) opened as the first replication of the Citizens Academy (CA) Model, using the exact same curriculum and following the CA Way (a set of high academic and behavioral expectations). The leadership team at CAE even came directly from the flagship school! The transformational school culture and implementation of the CA Way lays the foundation for the success of both schools, promoting a sense of ambition, personal responsibility, and a "no excuses" attitude exemplified by students and the CA Model community alike. CA served 420 K-5 students during the 2012-2013 school year, while the new CAE served 147 students in grades K-2.

CA students have rigorous academic expectations designed to prepare them for success in college and careers through a combination of reading, math, and writing. Every student receives an individualized academic plan (MAP) detailing the student's strengths and weaknesses and curricular resources. Every student also receives an individualized academic plan (MAP) detailing strategies for his/her success. Plans are updated with input from parents throughout the school year.

Enrichment Programs Engage Students In and Out of the Classroom

Students at CA and CAE participate in a variety of extracurricular programs that provide them with extended enrichment opportunities. The High-Flyer allows students who meet established academic criteria to participate in the Destination Imagination (DI) program. DI allows students to compete in challenges that cultivate 21st century high-level problem-solving skills in various academic areas. The challenges are multifaceted and student-led, giving students the opportunity to develop leadership and critical thinking. DI runs year-round and is offered to 1st through 5th grade students, giving almost every age group at the schools a chance to participate. Last year, four teams, a total of thirty students from CA and CAE, went on to compete at the regional level. Students prepared for the competition by meeting regularly after school, and even on Saturdays. The teams explored different topics, including the color spectrum, farming, the stock market, skit writing, and demonstrating energy resources. All four teams from CA and CAE offered dynamic solutions to their challenges and placed in the DI competition! Students returned home with a 3rd place trophy, a 4th place recognition, and two 1st place certificates for a non-competitive challenge. In the CA community, DI is an exciting and enriching activity that allows students to develop leadership and critical thinking and 21st-century high-level problem-solving skills in various academic areas.

New School Technology Gives Students the Tools to Succeed

Last year, CA and CAE spent time making changes to help students build 21st-century skills. At Citizens Academy, the number of computers increased, giving each classroom 4 desktops and the computer lab 28 desktops. The school also has 2 classrooms set laptop carts - a total of 52 additional computers. At Citizens Academy East, there are 5 desktops in each classroom and 27 in the computer lab, along with a shared class set of iPads. Students use computers and tablets for assessments such as Scantron and iReady, blended learning activities with Toast to Read and Study Island, preparing presentations through PowerPoint, and to continue classroom work through graphing and word processing.

Citizens Academy is one of two schools in the state recognized as both a High Performing School of Honor and a High Progress School of Honor by the Ohio Department of Education.
