E Prep & Village Prep

WOODLAND HILLS

A BREAKTHROUGH SCHOOL

Our E Prep & Village Prep Woodland Hills campus opened in 2012 following high demand and community interest. Building on the success of the flagship campus in the St. Clair - Superior neighborhood, Woodland Hills has quickly become a city-wide leader in helping students achieve a tremendous amount of academic growth from year to year. In addition to academic success, Woodland Hills has also hosted major community and statewide events, including the Governor's press conference on education.

Our mission is to seek to provide a high quality, academically rigorous education for the college bound scholar.

We empower our scholars to think critically, assume social responsibility, and serve as advocates for themselves and the community. We achieve these goals with in a highly focused, structured and safe environment. We, as a community of educators, families and scholars work relentlessly to ensure that every child is prepared to succeed in a competitive world.

Highlights from last year...

Our Kindergarten team proved what is possible for our scholars in reading! Through careful planning and engaging instruction, they **improved the percentage of students reading at or above grade level from 1% to 82%** from the beginning of year (BOY) to the end of year (EOY).

Huge shout out to the team of Lauren Baum, Aaliyah Van Leer, Lindsay Gibbons, Missy Jones, Monica Ratcliffe, Sarah Qua and Nikki May who worked relentlessly to put our youngest scholars on the path to college!

For 10 weeks in late fall, 50 3rd graders participated in an **at-home reading program** designed to boost reading fluency and comprehension. Students had to read two books per week, fill out a graphic organizer, and discuss the book with someone at home. Scholars had to turn in their work each week and receive 2 new books.

The event was kicked off at a special assembly attended by families. In the end, scholars that completed the program won a field trip to Sky Zone to celebrate their hard work. This was one of the key initiatives that helped drive the percentage of scholars reading on or above grade level from 8% to 65% from beginning of year (BOY) to the end of year (EOY).

One of our teachers, Brianna Crabtree, utilizes all modalities when teaching 6th grade Social Studies. Any time you walk into her class you can see her engaging her students in a "Shark Tank" project, or connecting countries through trade routes.

Our students were able to "feel" the routes between the countries by connecting with their country counterparts using yarn. Following this lesson, students were able to speak to the products traded and which countries had rich supply and those that were in demand.

Our 8th graders spent time after school on weekdays volunteering their time preparing and serving meals, then cleaning up afterwards! Their efforts helped to serve many residents of our Slavic Village neighbors.
